Mandilas Cooling

Residential & Light Commercial Systems

Made For **Cool** Made For **You**

Our Carrier Air Conditioners are energy efficient, with superior performance and a powerful operation for rapid cooling and precise temperature control. Carrier systems include inverter and non-inverter Hi-Walls and Ducted units that are highly durable as well as reliable.

Standing Air Conditioners
Capacity: 2.0hp – 10.0hp

Portable Air Conditioners
Capacity: 1.5hp

Cassette Units
Capacity: 1.5hp – 5hp

Ceiling Concealed Ducted Units
Capacity: 2.0hp – 7.0hp

Hi-Wall Split Air Conditioners
Inverter and Non-inverter
Capacity: 1.0hp – 3.0hp

Window Units Air Conditioners
Capacity: 1.0hp – 2.0hp

Under Ceiling Convertible Air Conditioners
Capacity: 1.5hp – 2.0hp

Floor Mounted Convertible Air Conditioners
Capacity: 1.5hp – 2.0hp

Clean **Air** Clean **Life** with **Carrier Air Purifiers**

The Carrier Air Purifier is a must-have for all indoor spaces. It eliminates indoor air pollutants including viruses, bacteria and germs. Refreshes stale air and dispenses cleaner air back into any indoor space thereby removing respiratory infection triggers and asthma inducing allergies.

It rids the air of soot and unpleasant odours from smoke, cooking, pets and household products. Carrier Air Purifiers are energy saving with high efficiency HEPA filter and activated carbon filter which is 5 to 10 times more powerful than traditional carbon filter.

Trap Excess Moisture in the Air with Carrier Dehumidifier

Humidity in indoor spaces can be beneficial but too much humidity can create a festering ground for mould and bacteria which are harmful to health and well-being. At Mandilas, we understand the importance of clean IAQ (indoor

air quality) and keeping humidity levels in your indoor space at a suitable temperature. Our Carrier range of dehumidifiers offer humidity control solutions for enhanced comfort, even in high humidity conditions.

Return air below

Types/Capacity Range

50CJ X

Direct Expansion with exterior air condensation unit; 7KW – 47KW, 800m³/hr. – 12,000m³/hr.

50CJ W

Chilled water type; 5KW – 27KW, 800m³/hr. – 6,000m³/hr.

50CO

Chilled water type; 40KW – 127KW, 10,000m³/hr. – 27,000m³/hr.

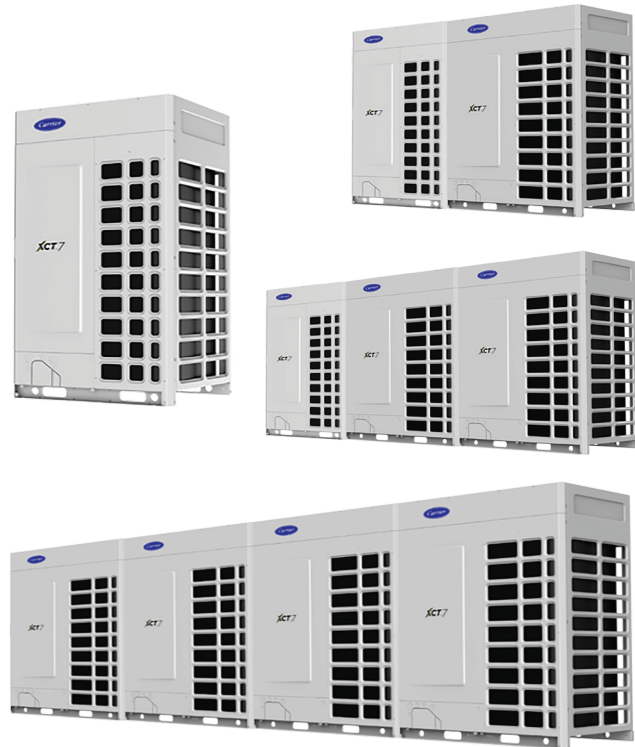

VRF System

The Carrier VRF system is an intelligent solution that gives the benefits of a central commercial ac unit but in a simpler, non-complex form.

The Carrier VRF has better flexibility in design and installation making it viable for most types, sizes, and locations of facilities. With the VRF you can

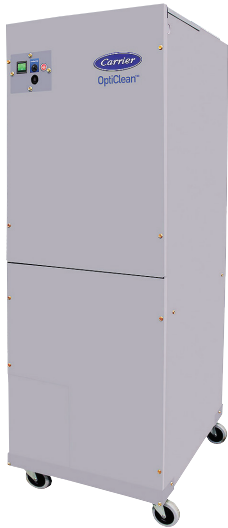

connect a combination of 3 indoor ac units (wall mounted acs, ducted acs, concealed units, under-ceiling, console and air handling units) to one outdoor unit providing cooling to multiple rooms or office spaces from a single outdoor unit.

Our Carrier VRF systems boasts of the most expansive range in the industry.

Opticlean Air-Purifier

Collection Efficiency;
>=99.95
Min 1000m³/hr. – Max
2,500 m³/hr

Application

Hospital room & Classroom,
Open filed Hospital,
Classrooms, Sport Centre,
Cafeteria/ Restaurant, Offices
etc.

Commercial Split Units

Commercial Split Units

Capacity range: 21
KW – 138 KW

Standalone Condensing Unit

Capacity range: 40
KW – 160 KW

Mandilas Refrigeration

Cold Chain Solutions For Every Need

Truck Rental & Lease

We have trucks and pickup vehicles with refrigeration equipment installed for on-the-go transportation of temperature sensitive materials for Food, Retail, Pharmaceuticals, Agri-produce, Biologics, Raw materials, etc. These vehicles are available for rental or lease and can be used for road refrigeration and as well as stationery refrigeration. Our Carrier Transicold solution is robust, versatile and can be easily modified to suit and fit into any environment.

Cold Chain Refrigeration Equipment Sales

Mandilas Refrigeration provides advanced, energy-efficient, and environmentally sustainable refrigeration systems for stationary storage, light commercial vehicles, trucks, and trailers. Our Transicold products and services are designed to help monitor and manage the cold chain of

temperature-sensitive/perishable products with full-service supply chain visibility solutions that provide complete cargo transparency from origin to destination. We have a wide range of systems designed for intercity, intracity and long-haul transport needs.

Walk-In Cold Rooms/Storage

At Mandilas, we design, build, install, commission & maintain cold rooms and storages. Every cold room/storage is built with precisely engineered components that are designed to ensure durability and reliability in use. Rigorous quality control tests are done to ensure that each component meets global quality standards. Cold Rooms can be custom built to meet space and volume requirements - ranging from small units to large refrigerated warehouses. The temperatures can also be regulated to suit the needs of a variety of goods and perishable food items.

Mandilas

M.E.P

Mechanical, Electrical & Plumbing Services
