Your trusted **HVAC-R** and **Mobility** Partner since 1950

For nearly 80 years, Mandilas Group has been a silent engine powering Nigeria's progress. We don't just deliver products and services, we deliver peace of mind by providing dependable air conditioning and mobility solutions. Our unique value lies on a simple, unwavering promise: keep Nigeria cool and moving forward. Reliably and in comfort.

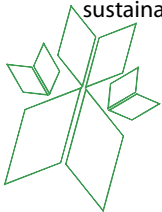

While our Mobility offering keeps the nation's wheel spinning, our HVAC-R team transform workspaces into productive oases and homes into tranquil sanctuaries.

What sets us apart:

Expertise - With almost 80 years of experience, our technical mastery is unmatched in the Nigerian market.

Empathy - We understand and feel the customer's pain points and provide tailor-made solutions that match the customer's aspirations.

Reliability - We pay attention to detail and strive to consistently deliver excellent service. We solve problems sustainably and cost-effectively.

HVAC Solutions for Every Sector

Across commercial buildings, healthcare facilities, data centers, hospitality venues, industrial plants, offices, marine applications, and public infrastructure, reliable climate control is essential to operations, safety, and occupant well-being. Each sector presents unique environmental demands, from precision cooling for mission-critical equipment to robust systems for high-traffic public spaces that require solutions that are engineered, not improvised.

Carrier systems delivered by Mandilas are designed for dependable performance under real-world conditions, ensuring stable temperatures, energy efficiency, and uninterrupted operation even in demanding environments. Backed by decades of engineering excellence, these solutions support productivity, protect sensitive assets, and enhance comfort for occupants, customers, and staff.

Beyond performance, organizations choose Carrier by Mandilas for long-term value, proven durability, energy-efficient operation, availability of genuine parts, and expert support that delivers lower total cost of ownership over the equipment lifecycle. From system selection and installation to maintenance and upgrades, Mandilas provides a complete partnership that keeps critical environments running efficiently year after year.

Mandilas HVAC-R

Commercial and Industrial Solutions

Mandilas HVAC-R Commercial and Industrial Solutions

In the corporate world, HVAC-R is more than a utility, it is a critical driver of Total Cost of Ownership (TCO) and employee productivity. Our industrial-grade solutions are engineered for the challenging Nigerian climate, delivering rapid cooling that stabilizes large-scale environments in minutes while maintaining whisper-quiet operation.

By integrating advanced technology and smart thermal management, we significantly reduce energy consumption, directly lowering running cost. From server rooms requiring precision cooling to expansive open-office layouts, we provide the "all-clear" for your team to perform at their peak, backed by a system built for longevity, sustainability, and business continuity.

Chillers

Chiller Types

Air Cooled Chillers
Water Cooled Chillers
Centrifugal Chillers
Absorption Chillers

Variable Refrigerant Flow (VRF)

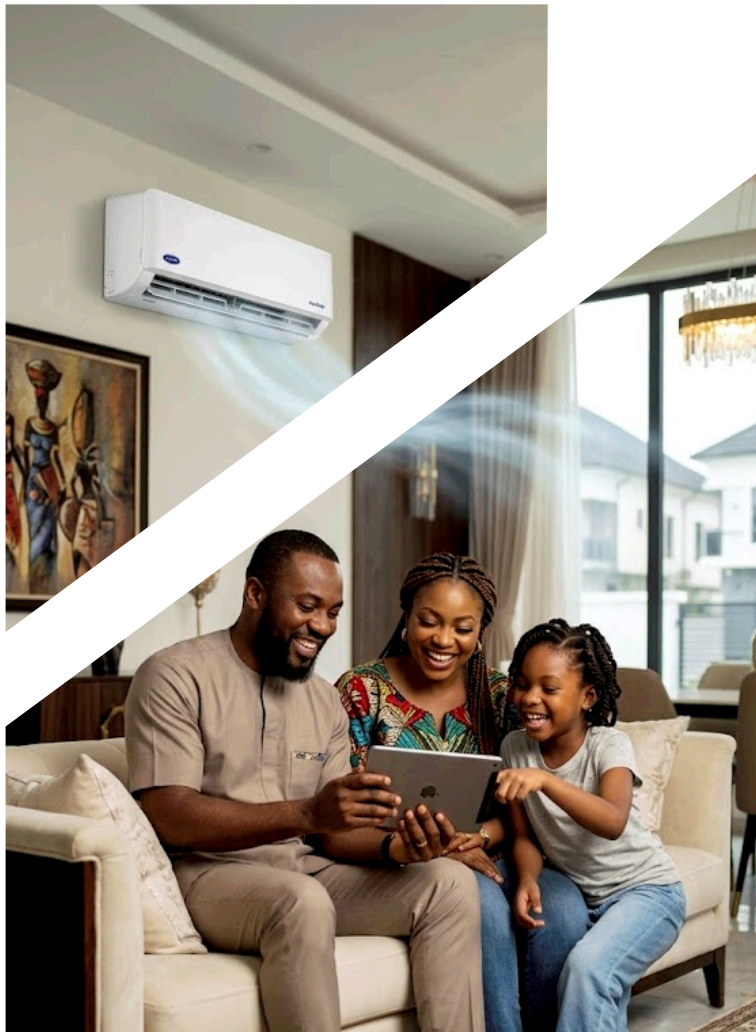

The Carrier VRF is an intelligent solution that provides benefits of a central AC unit but in a much simpler form.

Carrier VRF systems due to their flexibility in design and installation makes it viable for most type, sizes, and location of facilities. With the VRF you can connect 3 to 64 different types of indoor units to one outdoor unit, providing cooling to multiple rooms or office space from a single outdoor unit.

Carrier has the most expansive range of VRF systems in the industry.

The Carrier VRF Advantage

- Incredible Flexibility
- Ultimate Reliability
- Enhanced System Performance
- Easy Installation & Maintenance
- Low Energy Consumption

Residential & Light Commercial Systems

Optimal Cooling Performance

Our Carrier Air Conditioners are energy efficient, with superior performance and a powerful operation for rapid cooling and precise temperature control. Carrier systems include inverter and non inverter Hi-Walls and Ducted units that are highly durable as well as reliable.

Standing Air Conditioners
Capacity 2.0hp—10.0hp

Portable Air Conditioners
Capacity 1.5hp

Ceiling Concealed Ducted Units
Capacity 2.0hp—7.0hp

Floor/Under Ceiling Convertible
Capacity 1.5hp—2.0hp

Cassette Unit
Capacity 1.5hp—5.0hp

Window Unit
Capacity 1.5hp—2.0hp

Hi-Wall Split Air Conditioners
(Inverter & Non Inverter)
Capacity 1.0hp—3.0hp

2-in-1 Air Purifier and Dehumidifier

Healthy. Economical. Smart.

The Carrier DI is a next-generation device that combines dehumidification and air purification in one smart system, it helps create a healthier, cleaner, and more comfortable indoor environment for homes and enclosed spaces. The system was developed to address common indoor air challenges such as humidity, bacteria buildup, unpleasant odors, poor air quality, and limited drying conditions for clothes, especially in modern living spaces.

It works through a multi-layer purification and moisture-control process that includes an H12 HEPA filter, UV-C sterilization, super ionizer technology, and a self-cleaning function. The HEPA filtration system captures fine particles, allergens, dust, pollen, and airborne pollutants, while the ionizer and UV-C technology help reduce bacteria and improve air freshness. At the same time, the inverter-powered dehumidification system removes excess moisture from the air, helping maintain comfortable humidity levels while also preventing dampness and mold growth.

Carrier DI — What's Inside?

- **5-Stage Air Purification** — H12 HEPA filter, Super Ionizer, UV Pro disinfection, and self-cleaning mode.
- **99.9% PM2.5 Removal** — HEPA-grade filtration for microscopic particles and bacteria.
- **Inverter DC Motor** — Fast, powerful dehumidification with ECO night mode for energy savings.
- **Ultra-Quiet:** 33–39dB — Whisper-level operation, day and night.
- **5L Auto-Shutoff Tank** — Handy-lift design; shuts off automatically when full.
- **Smart Control** — WiFi app, Google Home & Alexa voice commands, colour-coded touchscreen display.

Two functions. Five-layer protection. One intelligent unit.

Walk-In Cold Room Storages

At Mandilas, we design, build, install, commission & maintain cold rooms and storages. Every cold room/storage is built with precisely engineered components that are designed to ensure durability and reliability in use. Rigorous quality control tests are done to ensure that each component meets global quality standards.

Cold Rooms can be custom built to meet space and volume requirements, ranging from small units to large refrigerated warehouses. The temperatures can also be regulated to suit the needs of a variety of goods and perishable food items

HVAC-R Aftersales

Expert Support You can Rely On

HVAC- R Services

We offer a full spectrum of aftersales services that cover residential, light commercial and industrial cooling systems, as well as cold rooms, cold storage, and refrigerated trucks.

Installation

Professional installation of HVAC-R systems in residential, commercial, and industrial environments, including cold rooms, cold storage facilities, and refrigerated trucks, executed to strict engineering and manufacturer standards to ensure optimal performance, energy efficiency, and long-term reliability from day one.

Startup/ Commissioning

Comprehensive system testing, calibration, and performance validation after installation to confirm the equipment operates exactly as designed, reducing early-stage failures and guaranteeing peak efficiency.

Routine and Non- Routine Maintenance

Scheduled preventive servicing and corrective maintenance tailored to system usage and operating conditions, helping to extend equipment lifespan, improve energy efficiency, and prevent costly, unexpected breakdown.

Repairs

Prompt troubleshooting and restoration of faulty HVAC-R components using certified technicians and genuine parts, minimizing downtime and quickly restoring comfort and operational continuity.

Diagnostics

Advanced fault detection using technical expertise and specialized tools to accurately identify underlying system issues, preventing recurring failures and eliminating unnecessary repair costs.

Equipment Replacement

Professional replacement of outdated or underperforming systems and upgrade to modern, energy-efficient solutions that improve performance, lower operating costs, and align with current technology standards.

Duct Cleaning

Thorough cleaning of air ducts and ventilation pathways with state-of-the-art equipment removing dust, debris, and contaminants, improving airflow efficiency and significantly enhancing indoor air quality for healthier environments.

Emergency Services

Rapid-response technical support for urgent system failures or critical cooling needs, ensuring minimal disruption to business operations and sustained comfort during unexpected breakdowns.

Spare Parts

Provision of genuine OEM parts and critical components to maintain system integrity, ensure compatibility, and protect equipment warranties while enhancing durability and performance.

Our Edge

- ~200 Experienced and world Class qualified Engineers in Nigeria.
- ISO Integrated Management System (IMS) Certified.
- Highest Standards in HSE and completion of 1million safe working hours with NLNG.

HVAC- Spare Parts

At Mandilas, we stock all the parts that matter in Cooling solutions including OEM Parts. In an industry where substandard components are a constant risk, Mandilas provides the ultimate certainty.

We remove the 'parts lottery' from the equation by stocking an exhaustive inventory of 100% Genuine OEM Parts engineered specifically for your cooling systems.

Don't compromise your investment with 'high-quality' clones that lead to costly downtime; trust the only partner that delivers the traceable, factory-grade integrity your business deserves.

Full Maintenance Lease

Premium Mobility Solutions Tailored for Corporate and Individuals.

At Mandilas, our Vehicle Lease solution provides reliable access to vehicles without the financial and administrative burden of ownership. Businesses and individuals can deploy the right vehicles quickly while preserving capital and benefiting from predictable monthly costs, allowing you to focus on core operations while we manage the complexities.

Each lease is tailored to your operational needs, covering vehicle sourcing, registration, comprehensive insurance, tracking, In-Vehicle Monitoring System (IVMS), and all forms of maintenance and repairs to ensure consistent performance throughout the lease period. Flexible terms make it easy to scale your fleet as requirements evolve, without long-term asset commitments.

Backed by professional support and nationwide service capability, Mandilas keeps your vehicles dependable, efficient, and ready for daily use. With transparent costs and minimal downtime, our Full Maintenance Lease delivers convenience, financial control, and lasting peace of mind.

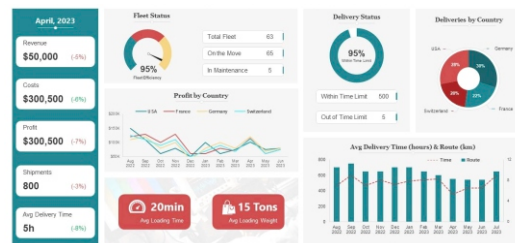

Fleet Management

End-to-End Solutions Designed for Operational Efficiency

Mandilas Fleet Management services ensure the smooth, efficient day-to-day operation of your vehicles while you focus on running your business. Our comprehensive approach covers planning, coordination, and oversight to keep your fleet productive, compliant, and cost-efficient at all times.

We provide tailored solutions including scheduled maintenance coordination, performance monitoring, and administrative support aligned with your operational needs. Dedicated professionals oversee each fleet, helping reduce downtime, extend vehicle lifespan, and maintain consistent service quality.

With scalable support and data-driven insights, Mandilas delivers full visibility into fleet performance and operating costs. Whether managing a small pool or a nationwide fleet, our service provides the reliability, accountability, and confidence required to keep your business moving forward.

Automobile Aftersales

Trusted Services

Mandilas Aftersales

Service Built for Peak Performance

At Mandilas, our relationship with you begins, not ends, at the point of sale. Our Aftersales division is a center of excellence dedicated to the lifelong health of your vehicle. By combining state-of-the-art diagnostic technology with the specialized expertise of our factory-trained master technicians, we ensure that every service, repair, and routine check adheres to the highest global standards. We don't just maintain your car; we safeguard your mobility and your peace of mind.

Genuine Parts. Unrivalled Performance. We believe that a vehicle is only as reliable as the parts within it. That is why Mandilas Aftersales exclusively utilizes 100% genuine manufacturer parts, ensuring that your vehicle's performance, safety, and resale value remain uncompromised.

From rapid-response mobile service units to our fully equipped service centers across Nigeria, we provide a seamless support ecosystem designed to keep you on the road and your business ahead of the curve.

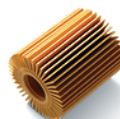

Automobile Spare Parts

Authentic OEM Spare Parts.

In a market where authentic parts are often scarce, **Mandilas** delivers complete assurance. We stock a comprehensive inventory of 100% Genuine OEM (Original Equipment Manufacturer) parts engineered specifically for your vehicle, ensuring reliability, safety, and optimal performance.

Avoid the risks of “fairly used” components or imitation parts that compromise durability and resale value. From critical engine systems to precision electrical components, every part we supply is genuine, tested, and fully traceable.

With **Mandilas**, you’re not just buying a spare part — you’re protecting your vehicle’s integrity, performance, and long-term peace of mind.
